1921 CROP OF WHEED HIGHER THAN 1920

U. S. Department Report Shows
Production of 855 Pounds
To Acre Last Year

Official figures from the department of Agriculture at Washington, show that the barley crop of 1921, not counting the association sales, averaged 9 cents a pound more than that of 1920 crop. This was paid in spite of the fact that the 1921 crop was inferior to that of 1920. According to the department report the increase was due to the movement to market tobacco co-operatively.

According to the report the average production per acre, in all parts of the Burley district was 855 pounds to the acre.

In a summary of tobacco markets from 1916 to date, just made public by the H. M. Braker Tobacco Company, of Carrollton, and distributed to the trade, loose leaf sales show a gradual increase in prices from 1916 up to 1919 and including the latter year, when the apex of \$32.66 was reached. In that year Lexington sold 63,101,712 pounds at an average of \$13.40.

The market summary covers every known burley market and the figures by years are as follows:

Year	Pounds Sold	Aver.
1916	205,429,825	\$16.08
1917	252,381,587	24.78
1918	329,638,370	32.06
1919	309,339,021	32.66
1920	297,493,310	13.37
1921	57,603,273	22.21

Members of the Burley Tobacco Growers' Co-operative Association say that the average of the 1921 crop will not be known until the last of the Association holdings has been paid for and checked up. The loose leaf warehouses are compelled by state law to report their sales monthly, giving a sworn statement of tobacco sold and prices received for it, but as this law applies only to auction markets, it does not require reports from the Burley co-operative and, except for the month of February last, none has been made to the department. This was the first month of the Association's activities and the tobacco sold by it during that month averaged \$29 a hundred pounds, according to the report of Commissioner of Agriculture W. C. Hanna, who strongly commended the organization and said then that it was likely the growers in the Association would receive more for their tobacco than the farmers who chose to sell outside the pool.

Weed Prices Up In South

Raleigh, N. C., Oct. 12—Eighty-one tobacco warehouses on 39 markets in North Carolina, exclusive of the cooperative marketing warehouses, reported 50,179,170 pounds of tobacco sold during September at an average price of \$25.15 a hundred against \$20.16, 170 pounds sold in September, 1921, at an average of \$21.93, according to figures made public today.

MRS. DEBOUCHEL ASKS NAMES OF SLANDERERS

(By Associated Press)

Atlanta, Oct. 12—Mrs. Onezima DeBouchel apparently jilted by Asa Candler, widely known Atlanta capitalist, today made public a letter to Candler demanding to know the names of the persons who, Candler told her, made statements reflecting upon her. "Do you expect to let this slanderer go unpunished?" the letter stated and added "I will publish it to the whole world and we will see if the world is as credulous as you seem to be. If there are such men and I certainly do not believe there are, who make such statements. They have been paid to do it and they shall go to the penitentiary along with those who hired them." The letter asserts the attack upon her is a "clumsy conspiracy that imposes on nobody but you."

COLONELS PLAYING RICHMOND TODAY

All roads lead to the Normal athletic field this afternoon where the Louisville Colonels with Earl Combs in the line-up play an All-Star Richmond team.

The cool wind of Wednesday night and sunshine of Thursday morning, together with a lot of dragging and rolling, made it possible to play the game on the Normal field. This was good news to the many fans who wanted to see the game, as these grounds are much more accessible than out at Walker's Park.

Manager Meyer announced Thursday morning that Tommy Long, premier southpaw of the Colonels, will twirl the game.

Long is a real artist from the portside and has been a good winner for the club. Tatum and Rasty Wright are expected to do the twirling for Richmond, as Sam Reid has not returned from Hustonville.

Indications are that a record crowd will be present. His host of friends have been giving Earl Combs a royal welcome ever since he got to town. He spent Thursday morning mingling with former school mates at Eastern Normal and received the glad hand on all sides. Everyone who has met them has commented on the gentlemanly appearance and demeanor of the members of the Louisville club. They are making many friends and admirers while here.

BOGGS TO SPEAK ON ROAD TAX

State Commissioner To Tell the
Home Folks of Benefits of
Providing for Good Roads

State Highway Commissioner Joe S. Boggs is going to come back from Frankfort next Saturday, October 21st, to tell his home folks what a great benefit they will confer on their county vote for the general road tax on Nov. 7th. Mr. Boggs will be accompanied by former Road Commissioner Rodman Wiley and Geoffrey Morgan, the latter a former Madison man, who will have something to say at the same time.

The speaking in Richmond will be Saturday afternoon, the 21st, at the courthouse at 2 o'clock. The same speakers will go to Berea and speak that night. It is expected that pig crowds will greet these men for they are all qualified to tell the people of Madison just what they may expect if they provide the necessary funds with which to build real roads.

The Kiwanis Club of Berea gave its solid endorsement to the road tax at its meeting Wednesday evening. R. E. Turley, of Richmond, spoke before the club and explained the matter in every detail, particularly the safeguards by which the people are going to be assured that they are obtaining the worth of their money. Mr. Turley found a strong sentiment in that section of the county in favor of the special tax, he says.

TOMB OF ANTIOCHUS FOUND AT BETH-SHAN

Philadelphia, Oct. 12—The nearest approach to unearthing contemporary records of Christ was announced today by Dr. George Byron Gordon, Director of the Museum of the University of Pennsylvania. The discovery was made by Dr. Clarence Stanley Fisher, Director of Excavation, at Beth Shan in Palestine.

The discovery was the burial place of Antiochus, the first cousin of Herod the Great. Antiochus, in all probability, Dr. Gordon asserted, was one of the men charged by Herod with directing the slaughter of the children in Bethlehem, as narrated by Matthew, in a vain effort to kill the Christ child, who had been described by the Wise Men as the "King of the Jews."

"The interesting part is that the father," Dr. Fisher wrote, "Phallion, was killed in this district during a battle with Pompey, and his son, Antiochus, was supposed to have died here some time later. The discovery of his coffin in our cemetery proves this point beyond doubt. So far as I know, this is the first sarcophagus of the Herodian family that has been found."

300 ON NEW SHIP BURNING AT SEA

(By Associated Press)

Los Angeles, Oct. 12—With 300 passengers aboard the Los Angeles steamship Company's new 17,000 ton steamship, City of Honolulu, was reported by wireless today after two days off the shore on the return trip from Honolulu. Another message said boats are being lowered from the burning ship and asked other steamships in the vicinity to stand by.

BOLD ROBBERY OF PULLMAN CAR

(By Associated Press)

Kansas City, Oct. 12—Police today are searching for a negro who late last night held up two Pullman cars on a westbound Santa Fe train soon after it pulled out of the station here. A negro boarded the rear end of the train and completed the robbery just before the city limits were reached. He ordered all persons in the observation car to place their valuables on a chair, then seized the loot, ordered the passengers to hold up their hands, and backed away. The amount secured is not known.

WHEAT AND BARLEY SOWN DURING WEEK

Crop and weather conditions in Kentucky during the past week are summarized by the U. S. Department of Agriculture from reports of the bureau at Louisville as follows:

The first five days were unseasonably warm, but the week ended with temperature considerably below normal. Good showers, occurring generally over the State near the end of the week, caused improvement in pastures and insured germination of grain and alfalfa that has been sown recently.

Considerable wheat and barley were sown during the week, but most of it was done in corn stubble; as the soil has continued too dry for much progress with plowing. Germination has been unsatisfactory, some grain dying soon after sprouting. Better results are now possible in seeding and soil preparation; but considerably more rain is needed to thoroughly soften the ground, also for pastures, clover, alfalfa, and for replenishing stock water. Cutting late corn and housing late tobacco is nearly finished. Conditions have been exceptionally favorable during the period of harvest for drying out the corn and curing tobacco. As a result corn will be ready to crib earlier than usual, and the color and quality of tobacco has been improved. Some late potatoes that are still green will be benefited by the rains; but the high temperature of the last ten days caused premature dying of the plants and a lessening of the yield. Considerable sorghum is also in the field; otherwise crops are 1/2 from frost injury.

MONEY NEEDED TO HELP GOOD CAUSE

In order to carry on a campaign of publicity to give to the voters of Madison county the facts in regard to the proposition to vote on a tax of 20c on each \$100 of taxable property, it will be necessary to raise about \$1,600. The committee and friends of the movement have already subscribed \$200 and any person who is in favor of a progressive movement to improve Madison roads and reconstruct the inter-county seat highways so that the state will take and maintain them is asked to give his or her donation to R. M. Rowland at the Southern National Bank. The money is needed and will be used by the committee to print and mail to the voters all the facts. 241 tf

COAL STRIKE LOSS OVER A BILLION

(By Associated Press)
Cleveland, Oct. 11—The recent coal strike caused a total loss of \$1,190,000 S. J. Bradley, of Dunbar, W. Va., former president of the National Coal Association, told the American Mining Congress here today. He said if every family in America would pay \$45 it would barely cover the loss. He asserted enough men were willing to work during the strike but was not sufficiently aroused to override the demands of the union which he characterized as an inconsiderable minority which held up as a highwayman does a train, the great majority who wanted to work.

BLUE LICK HUSTLERS BEATS RICHMOND

The Richmond boys were unable to get on to Hickman's slants at Johnson's Park Sunday and went down in defeat 4 to 0 at the hands of the Blue Lick Hustlers, who played good ball notwithstanding the cool, cloudy day. Charlie Rogers, premier pitcher for Richmond, seemed to be a little off form, or the Hustlers were hitting well which caused his downfall. His support was somewhat bad in one or two of the last frames. Welch was the feature hitter of the day, getting three hits in as many times up. Maupin did the receiving in fine style. While not a regular catcher he seems to fit in well most any position. Simp Rogers had plenty of pep all the time and played a nice game at first. The Hustlers were booked to play at Richmond Monday but as so many of the players wanted to attend the football game at Berea the date was moved up to next Sunday at Walker's Park, Richmond. This will be the final game of the season. Let's have a good crowd out.
